

## Notre Dame School Standardized Test Scores - 8th Grade

These results are normed against all students, in both public and private schools, taking the Iowa Test of Basic Skills nationally. They are properly read as grade.month (e.g. 10.8 is 10th grade, 8th month). As indicated, our students' grade equivalents on all subjects greatly exceed their actual grade level. These results aren't unusual as we see a consistent growth curve on these tests the longer students stay at Notre Dame.
